Industry Academia Collaboration between EEPL and MPBOU

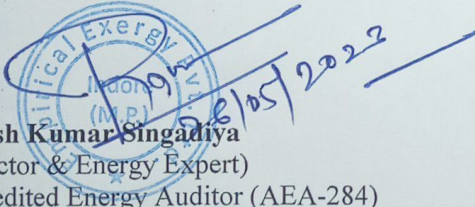

I am happy to share that Messrs Empirical Energy Pvt. Ltd (EEPL) Indore is closely associated with Madhya Pradesh Bhoj Open University (MPBOU), Bhopal and have conducted Environmental Audit and Green Audit for the University. EEPL is going for quarterly awareness and training program on sustainable development in University campus comprising of Energy, Environment and Green audit under CSR activities of the company to cover the skill enhancement activities under NEP 2020 Industry Academia collaboration.

I am happy to observe that conscious efforts have been initiated by Bhoj University towards Madhya Pradesh vision and mission, for community development of all the strata of society, either from periphery or center and adopted Societal welfare activities and green practices on campus. EEPL and MPBOU industry-academia collaborations with an enabling framework to innovate and commercialize solutions for societal problems. EEPL is going to support MPBOU for skill enhancement and vocational programs as per NEP Education policy 2020 as per mutual agreement.

Madhya Pradesh Bhoj Open University, Bhopal in close association with EEPL, is instrumental in promotion of Energy conservation through the state to create awareness on Climate Change, Global warming and reduce the environmental impact on society.

I would like to personally thank University administration for initiating the Energy popularization awareness and activities in the University which is one of the mandates of EEPL.
