learning modules (SLMs) in print or digital format/electronic copy. The hard copies are sent to the learner, and the soft copy of the SLM is available on the University website. SLM is available in both Hindi and English and the student can choose the medium of learning. The delivery of SLM has been digitized by including *SMS* alert in the system.

- There is a dedicated team of experts who create the content for SLM.
- SLM is reviewed periodically by the academic council for quality and relevance.
- The *e-PG paathshaala* and *swayam* platforms are excellent avenues for references. The University headquarters has an in house library for enrichment of students and faculty.
- Learning Management System developed by the Higher Education is also made available for students.

#### **Reaching out to students**

- We have 11 regional centres spanning the entire geographic area of Madhya Pradesh, and the students can come over to the study centres for doubt clearance during the time specified by the University.
- The University caters to a diverse segment of the population which includes the tribal population as well. MPBOU follows certain welfare measures, including fee waiver for the marginalized students whose details are displayed in the website.

#### **Assignments**

- The academic progress of the students is tracked with the help of

Type of HEI: State Open University

assignments and evaluation through formal examinations. The university has recently started online mode for assignment submission.

- With a view to reduce pressure on the learner, the assignments are so designed that the student is able to cover the syllabus as well as ensure minimum marks in the exam.

**Exams**

- The annual academic plan with major milestones is displayed on the university website. Notification of exams reaches the students through Whatsapp as well.

2. Self-evaluative and Educational Institution

The M.P Bhoj Open University Centre Internal Quality Assurance (CIQA) has instituted a mechanism to collect feedback from the various stakeholders of the university, which include students, alumni, academic counselors, teachers/academicians, etc. The objective of the exercise is to correctly gauge the perception of the related stakeholders so that the university becomes more student-centric and for the betterment of our outreach. The Centre for Internal Quality Assurance collects inputs and suggestions from the stakeholders, and further action to be taken is discussed with concerned schools, divisions, departments, and authorities. The decisions taken by the authorities are forwarded for action to be initiated.

1. The feedback is collected, and trends are generated through statistical analysis. Based on the opinions of the stakeholders, further action is taken by the administration.

2. We intend to shift to an online mode of feedback shortly, but in the past, it was done manually. Students can write to us in an open format in case they want to highlight any issue in particular. A suggestion/ feedback box is installed at the University entrance, which gets checked by the student support center on a monthly basis. The support center then redirects the suggestion/complaint to the concerned section.
3. In order to get a bird's eye view of the situation, the University then decided to switch to a structured format. Our questionnaire follows a structured format in which the student or the stakeholder needs to assign a rank on the Likert Scale. Our structured questionnaire has queries regarding the quality of the curriculum in general, the syllabus, timely availability of SLM and reading material, their overall experience with the University, etc.
4. The feedback form will be available from the reception on request, and our regional centers also have the proforma of the questionnaire. Any student or teacher can access it and send in their feedback.
5. Apart from the above, informal reviews in the form of phone conversations take place between the headquarters and the regional director, and the study centres as and when the need arises.
6. Online meetings of the Vice Chancellor and the Registrar with RDs and RCs also take place as and when the requirement is felt.
7. PPR has been prepared for all the courses, and efforts are made to ensure that guidelines are followed strictly.

**Action taken**

In the structured format in the year 2022-23, we received 22 responses from the

alumna, 31 from students, 49 responses from teachers and academicians, and 33 responses from academic counsellors. Based on the feedback obtained, CIQA was instrumental in bringing forth the following decisions.

- 1. Designing Program Guide**
- 2. In-time dispatch of the Self-Learning Materials to the learners:**
- 3. Providing study material aids like audio/video material:**
- 4. Using Open Educational Resources/Digitized Course Material for Self-Learning Material**
- 5. Making the counselling sessions more interactive by using Technology Enabled Learning Methodology**
- 6. Providing learner-centric services to submit the assignments and get it evaluated in time**
- 7. Providing detailed and clear instructions on Examination procedures to the learners**
- 8. Teams were deployed from headquarters to visit regional centres and appraise situations at the ground level.**

3. Contribution in the identification of the key areas in which Higher Educational Institution should maintain quality

Depending upon the feedback received from various quarters CIQA has made the following suggestions.

1. Prepare an SOP for timely delivery of SLM.
2. An Sop for examination need to be developed which should include facility for online filling up of exam forms for regular, reappear, special chance exam, re-evaluation and others.

		<p>3. To streamline the evaluation process- information regarding examination allocation, examination schedule, admit card generation etc.</p> <p>4. For internal examinations like assignments, smooth submission of assignments and queries related to assignment should be redressed at every level.</p> <p>5. Any corrections in degree certificates should also be paced up, and more transparency need to be ushered into the process.</p> <p>6. SLM was initially available only in print form. As per the suggestion from CIQA, its electronic form was created and made available to students.</p>

5.	Mechanisms devised for interaction with and obtaining feedback from all stakeholders namely, learners, teachers, staff, parents, society, employers, and Government for quality improvement.	<p>Feedback is an effective mechanism by which the teacher and the learner get to know the shortcomings of the system, and if collected and collated properly, it can have a pronounced impact on various facets of teacher-to-student communication, the environment of the campus, and quality improvement in general.</p> <ol style="list-style-type: none"><li>1. The M.P Bhoj Open University Centre Internal Quality Assurance (CIQA) has instituted a mechanism to collect feedback from the various stakeholders of the university, which include students, alumni, academic counselors, teachers/academicians, etc.</li><li>2. We do not have systems in place to collect feedback from parents, society and employers.</li><li>3. We do have an active interface with the government. Meetings with the honorable Governor and commissioner of higher education also take place at regular intervals. Officials from the higher education department conduct periodic review meetings called Sameeksha Baithaks. The CM helpline is another platform wherein the students can air their grievances, wherein the government also monitors the remedial action taken by the University.</li><li>4. 6.	Measures suggested to the authorities of Higher Educational Institution for improvement	<ul style="list-style-type: none"> <li>• CIQA suggested providing academic support through digital means in order to promote undistruptive learning opportunity for which various online tools and applications will be used. In fact, by using the blended and online platform, the University will be able to redefine the role of counselling and mentoring facilities that can transform the entire educational scenario of the university.</li> <li>• It has also been observed that the traditional academic counselling system is not sufficient to address the individual learner's specific needs and requirements. Therefore, e-Mentoring plays a vital role to provide more inclusive kind of support services to the ODL learners.</li> <li>• Single Window Student Grievance Redressal Cell/Online Complaint Handling System are the measures also suggested by CIQA</li> <li>• The University has to establish a Single Window Student Grievance Redressal Cell that receives feedback, grievances, complaints, suggestions and requests from the learners and general public through e-mail, telephone call, <i>sms</i>, personal visit or through various social media platforms, about the functioning of the University, anomalies in results, admission, supply of learning materials, counselling and tutorial sessions or regarding University policies.</li> <li>• The concerned authorities take efforts for fixing the maximum admissible time (five working days) for resolving the grievances and taking appropriate actions by the university.</li> </ul>	
7.	Implementation reviews	<p>CIQA has met periodically to discuss issues pertaining to the overall quality of the institute.</p> <p>Policy development: CIQA decided to develop policies regarding the following.</p> <ul style="list-style-type: none"> <li>• CREDIT TRANSFER POLICY</li> </ul>	<a href="#">Link</a>

		<ul style="list-style-type: none"> <li>• CONSULTANCY POLICY OF MADHYA PRADESH BHOJ OPEN UNIVERSITY</li> <li>• ETHICS POLICY FOR MADHYA PRADESH BHOJ OPEN UNIVERSITY</li> <li>• ENVIRONMENTAL POLICY</li> </ul>

9.	Developed and collated best practices in all areas leading to quality enhancement in services to the learners and disseminate the same all concerned in Higher Educational Institution	<p>The University has developed certain best practices over the years. They are as follows.</p> <ul style="list-style-type: none"> <li>• The University has installed Roof Top Solar Plant Panels under the project RESCO mode with a plant capacity of 100 KW and by linking it with the existing MPEB grid system. In this regard, the University has deposited an amount of Rs. 33.556 lakhs to MP Urja Vikas Nigam, which is the nodal agency for the same.</li> <li>• The infrastructure for vermicomposting on a small scale has been successfully installed on campus. The compost thus manufactured has promoted organic gardening practices, and the campus inmates use it for kitchen gardening purposes, thereby reducing their dependency on chemical fertilizers.</li> <li>• The University is consciously working towards reducing the use of paper by digitalizing documents and introducing an e-academic management system that involves digital management of students' academic details, including marks, attendance, etc. The University also encourages duplex printing and photocopying and recycles paper. Old answer sheets and packaging materials of the SLMs are recycled and reused. Every department practices the use-reuse-recycle concept while working. Used printed letterheads are used for internal memos.</li> <li>• The University has shown its commitment to the environment by developing a herbal</li> </ul>

garden with various shrubs and medicinal trees. This initiative has added to the utility of our lush campus, which sprawls over 25.26 acres. Our verdant lands are covered in hues of green, and the area brims with a rich biodiversity that includes some rare species of flora and fauna. Apart from the above, the University also creates awareness of the medicinal properties of plants and trees.

- **Nakshatra Garden**—The University has successfully developed a Nakshatra Vatika of 27 Nakshatra, incorporating environmental consciousness, traditional knowledge, and spirituality.
- **E-waste management:** Repairing and recycling of laptops, computer hardware, and projectors are encouraged and executed regularly. Some departments use overhauled computer peripherals and laptops as a part of this process. There is also a disposal box for E-waste collection at the University.
- Madhya Pradesh Bhoj Open University has adopted 05 villages under Unnat Bharat Abhiyan (UBA) for a transformational change in rural life. As per the directive, Madhya Pradesh Bhoj Open University adopted five villages of Bhopal. The villages Semari, Kharpa, Jagrakhand, Sarvar, and Khakhasrdole had a population of about 5000 to 6000. Situated in the periphery of Bhopal, these are tribal-dominant areas.
- A first household survey was conducted on 20th Feb and 28th Feb 2018 at Villages of Semari Bajyaft and Kharpa in 152 and 83 households, respectively. Similarly, in the villages of Servor, Jhagrikhurd, and Khakhrdol 112, 79, and 52 households were surveyed, respectively. The University maintained continuous monitoring of the adopted villages, especially during COVID-19.
- Jail inmates have taken admission, pursued their studies, and passed the examination as

The provision of providing fee exemption to the learners belonging to the Transgender community is implemented in the ongoing academic session of 2023-24 only, whose evidence can be collected later.

- Madhya Pradesh Bhoj Open University's experiment to disseminate higher education via state-owned television channels is an innovative approach to reaching the unreached population. This initiative aims to provide quality education to those with limited access to traditional modes of higher education, such as attending physical classes on college campuses.
- Utilizing various audio and video programs enables students to receive lectures and engage in discussions from the comfort of their own homes. The program's primary goal is to make education accessible to those living in remote areas with limited educational resources. This initiative is an excellent example of the effective use of technology to address social inequalities and bridge the education gap.

CIQA has a repository of best practices collated from various sources for enhancing quality in all areas of higher education.

- Keeping in view the diverse nature of our target population, the University has SLMs in dual languages of Hindi and English for the facilities of those students who are from the non-Hindi belt. All courses offered by the University are bilingual except those in the Hindi language.
- SLM involves individualized instruction that allows learners to use self-learning modules (SLMs) in print or digital format/electronic copy. The hard copies are sent to the learner, and the soft copy of the SLM is available on the University website. The *e-PG paathshaala* and *swayam* platforms are excellent avenues for references.
- The annual plan for the activities of the University is prepared, and there is an academic calendar with the stipulated dates uploaded on the website for the information of the learners.
- Efforts are made to adhere strictly to the timeframes planned.
- The academic council meets periodically to discuss the relevance of the syllabi and align it with the present scenario.
- MPBOU has revised the syllabi of courses to align them with NEP 2020.

Commission for various quality related initiatives or guidelines

1. Formation of CIQA: MPBOU has established a CIQA to implement quality-related initiatives effectively. The CIQA is responsible for coordinating with the UGC to ensure that quality-related initiatives are implemented in accordance with the guidelines.
2. Identification of Quality-related initiatives: The CIQA identifies the quality-related initiatives that must be implemented. These initiatives may include accreditation processes, curriculum development, faculty training, and student assessment.
3. Development of guidelines: Once the initiatives have been identified, the CIQA works with the UGC to develop guidelines for implementation. These guidelines outline the steps that must be taken to ensure that the initiatives are implemented effectively and efficiently.
4. Communication and collaboration: Regular meetings and communication channels are established between the CIQA and the UGC to ensure that both parties are aware of the progress and any issues that must be addressed.
5. Monitoring and evaluation: The CIQA monitors and evaluates the coordination efforts' effectiveness. This involves regularly reviewing the progress made towards the goals and objectives established in the framework, assessing the initiatives' quality, and identifying improvement areas.
6. Submission of reports: The CIQA submits regular reports to the UGC as and when required, detailing the progress towards implementing the quality-related initiatives.

Effective coordination between MPBOU and the UGC for quality-related initiatives requires a collaborative approach that prioritizes communication, transparency, and accountability. By working together, both parties can ensure that students receive a high-

### Complaint Handling Mechanism

*HEI shall mention the mechanism adopted for Complaint Handling*

*Mechanism as per Regulations. Also, mention details of Nodal Officers.*

There are several channels to handle the complaints of the students, employees and other stakeholders in Madhya Pradesh Bhoj Open University, Bhopal. The internal complaint committee hear both parties and resolves without any delay.

Internal complaint committee The Madhya Pradesh CM Helpline is a mechanism set up by the state government to address citizen grievances and complaints. The helpline aims to provide a platform for citizens to voice their concerns and seek redressal for their issues.

The Madhya Pradesh CM Helpline Enquiry Mechanism typically involves the following steps:

1. Citizens can call the toll-free number 181 or register their complaints online through the official website or mobile app.
2. The complaint is logged into a central database, and a unique reference number is generated for tracking purposes.
3. The complaint is then forwarded to the relevant department or agency for resolution.
4. The department or agency investigates the complaint and takes appropriate action to resolve the issue.
5. Once the complaint is resolved, the citizen is notified through an online reply.
6. If the complaint cannot be resolved within a specific timeframe, the citizen is provided with regular updates on the progress of their complaint.
7. There are four levels of the redressal of complaints. At each level, this is up to higher authority. If the problem is not resolved or redressed properly, CM reviews unresolved complaints and may take serious steps to resolve the complaint.

The Madhya Pradesh CM Helpline Enquiry Mechanism aims to provide citizens with an efficient and effective platform to register and resolve their complaints. The mechanism also ensures that there is a transparent process for addressing grievances and that citizens receive timely updates on the status of their complaints. Additionally, the Madhya Pradesh CM Helpline Enquiry Mechanism helps to improve accountability and transparency in government agencies by providing a platform for citizens to report issues and hold officials accountable for their actions.

This helps the government improve service quality and make the helpline more effective in addressing citizen grievances.

## Part – X: Innovative and Best Practices

### Innovations introduced during academic year

#### Sickle Cell Awareness Programme

##### Objective

Educating villagers about sickle cell anaemia by Madhya Pradesh Bhoj Open University in Bhopal is a positive initiative to increase awareness and understanding of this genetic blood disorder in rural communities.

##### Practice

Madhya Pradesh Bhoj Open University adopted five villages from the Dharmapuri Block of district Dhar on 5th July 2022. The names of the Villages are:

- 1: Rampura
- 2: Dhegda
- 3: Bhvanyakhurd
- 4: Gulati
- 5: Dasoda

Later in the next step, 5 villages of Dharmapuri block of the District Dhar were adopted by the University on 16/3/2023. Their names are:

- 1: Nimbola
- 2: Pedwee
- 3: Pagara
- 4: Pipaliya Khut
- 5: Bhogwa

This program could help prevent the spread of the disease and improve the quality of life of those affected. The program involved various activities, such as workshops, seminars, and health camps in educating villagers about sickle cell anaemia. In addition, the University worked with local health authorities and medical professionals to provide accurate and up-to-date information about the disease, causes, symptoms, and treatments. The program could also focus on raising awareness of the importance of genetic testing and counselling, as sickle cell anaemia is inherited. This could help individuals and families make informed decisions about their and their children's health. In addition to education, the program could provide support and resources to those affected by sickle cell anaemia, such as access to medical

treatment, counselling, and support groups. This could help to reduce the stigma and discrimination faced by those living with the disease and improve their quality of life.

Overall, educating villagers about sickle cell anaemia by the Madhya Pradesh Bhoj Open University is a valuable initiative that has the potential to improve the health and well-being of rural communities in the region.

##### Evidence of Success

A first household survey was conducted on 20th Feb and 28th Feb 2018 at Villages of Semari Bajyast and Kharpa in 152 and 83 households, respectively. Similarly, in the villages of Servor, Jhagrikhurd, and Khakhrdol 112, 79, and 52 households were surveyed, respectively. The University maintained continuous monitoring of the adopted villages, especially during

COVID-19. During the lockdown and relaxed periods, the University organized several camps on 16.07.2021, 17.07.2021, 23.07.2021, 02.08.2021, 12.04.2022, 20.04.2022, 26.04.2022, 27.04.2022, 14.11.2022 and 15.02.2023. Problems Encountered and Resources Required The problems encountered regarding the implementation of the practice range from the difficult accessibility of the adopted villages to the rural community, literacy level, and cognitive capabilities. The resources required for implementation include better road connectivity and improvement in literacy level.

### Best Practices of the HEI

Title of the Practice: Green initiatives

1. Title of the Practice: Green initiatives
2. Objectives of the Practice: Addressing environmental degradation as a cause of climate change which is a global concern.

As citizens of the world community, it is imperative that each one of us acts responsibly towards the environment while working for its conservation. Being an educational institution to reckon with, Madhya Pradesh Bhoj Open University is aware of its duty to educate learners on the importance of conserving the environment and biodiversity by encouraging the adoption of a sustainable lifestyle. The University strongly believes in teaching through practice and therefore attempts to set an example for the learners by taking up many green initiatives on its premises.

3. The Context: The University is located in one of the busiest areas of the city, amidst residential and commercial establishments where air pollution is considerably high. The civic infrastructure of the area has not been modified adequately to deal with the increasing demands of the population. Poor sewerage system, pressure on water resources and electricity, and vehicular pollution are some issues plaguing the area. The University infrastructure was not equipped to deal with the changing lifestyle patterns and scarcity of resources as it was built in the early 90s when the scene in the capital was very different. Despite the limited resources to overhaul and maintain the environment, the University has taken steps to become an environmentally conscious space and regulate its demand for limited natural resources.

4. The Practice: Madhya Pradesh Bhoj Open University caters to a diverse population of the state as it intends to expand Higher Education by reaching the unreached through various flexible means suited to the Open and Distance Learning (ODL) mode. A holistic education is necessary to create socially responsible individuals. Higher education cannot limit itself to merely providing academic training. Learners must be made aware of their duties and responsibilities towards society and the world. Being sensitive and responsive to the environment is a trait that has to be inculcated in the learners. The University has initiated the following practices to set an example and inspire all stakeholders to opt for environment-friendly alternatives.

HEI ID: HEI-U-0278

Name of HEI: M.P. Bhoj (Open) University, Bhopal

Type of HEI: State  
Open University

Solar energy: The University has installed Roof Top Solar Plant Panels under the project RESCO model with a plant capacity of 100 KW and by linking it with the existing MPEB grid system. In this regard, the University has deposited an amount of Rs. 33.556 lakhs to MP Urja Vikas Nigam, which is the nodal agency for the same.

- Rainwater harvesting: The University has a well-laid-out plan to create infrastructure and augment existing systems to facilitate rainwater harvesting on a large scale. The green grounds around the University building allow the rainwater to percolate through the soil to replenish the deep-water aquifer/underground water reserve.
  - Vermicomposting: The infrastructure for vermicomposting on a small scale has been successfully installed on campus. The compost thus manufactured has promoted organic gardening practices, and the campus inmates use it for kitchen gardening purposes, thereby reducing their dependency on chemical fertilizers. Producing green manure has also simplified the challenge of solid waste management. The dried leaves, stumps, and green wastes from the inmates' kitchens are recycled and utilized in vermicomposting.
  - Saving paper: The University is consciously working towards reducing the use of paper by digitalizing documents and introducing an e-academic management system that involves digital management of students' academic details, including marks, attendance, etc. The University also encourages duplex printing and photocopying and recycles paper. Old answer sheets and packaging materials of the SLMs are recycled and reused. Every department practices the use-reuse-recycle concept while working. Used printed letterheads are used for internal memos.
  - AROGYA VATIKA (Herbal Garden): The University has shown its commitment to the environment by developing a herbal garden with various shrubs and medicinal trees. This initiative has added to the utility of our lush campus, which sprawls over 25.26 acres. Our verdant lands are covered in hues of green, and the area brims with a rich biodiversity that includes some rare species of flora and fauna. Apart from the above, the University also creates awareness of the medicinal properties of plants and trees.
- Nakshatra Garden—The University has successfully developed a Nakshatra Vatika of 27 Nakshatra, incorporating environmental consciousness, traditional knowledge, and spirituality.

- E-waste management: Repairing and recycling of laptops, computer hardware, and projectors are encouraged and executed regularly. Some departments use overhauled computer peripherals and laptops as a part of this process. There is also a disposal box for E-waste collection at the University.

5. Evidence of Success: Each initiative undertaken by the University is a small step to contribute to the greater good of humankind. As it may be understood, these initiatives take time to bring about significant changes. However, the efforts are bearing fruit, and gradual changes are becoming visible. MPBOU has signed an MoU with Energy Swaraj Foundation, and two of our regional canters of Bhopal and Satna have received the climate clock award in recognition of our efforts to combat climate change recently.

We have actively participated in the Climate Correction Day (CCD) Challenge for mission LIFE launched by ESF under the Lifestyle for Environment program launched by the Honourable Prime Minister of India. All faculty and staff of MPBOU observed a no-iron clothes day and took a pledge of conservation.

The University has also entered into MoUs with VALMI and EPCCO for resource-sharing

and research purposes.

- There has been a sharp decline in non-green electricity consumption after the installation of solar panels.
- The tanks for rainwater harvesting are currently under construction, and it is hoped that the rainwater harvesting project will be successfully implemented as soon as planned.
- As targeted, vermicomposting has been successfully implemented
- The e-academic management system and duplex printing have visibly reduced paper use in the University.

#### 6. Problems Encountered and Resources Required:

The University, being an open and distance learning institute, does not have the regular footfall of the students, so their direct involvement is not possible. Financial constraints remain the biggest problem for expensive green initiatives like rainwater harvesting and maintenance of rare herbal and medicinal plants. The University is attempting to raise funds for these initiatives through several channels. Educating the local community about green

initiatives so that they adopt adequate measures also remains a challenge, given that there are many commercial establishments and densely populated colonies in the locality.
